

## CuddleStar™

Pacifier Stabilizer

### Choose Preemie or Newborn Pacifier Size

- 7 x 7 inch star-shaped pacifier holder with removable Preemie or Newborn size JollyPop Pacifier
- For hospital use only
- Single patient use

Made in the USA.

## Affordable & Convenient

### *CuddleStar safely keeps the pacifier close to baby*

Helps even tiny babies to keep a pacifier in place.

- Velcro® closure makes it easy to remove and replace JollyPop Pacifier.
- Flexible so you can easily and gently stabilize the pacifier.
- Multiple arms for baby to grasp or cuddle.
- Soft non-woven fabric – appropriate for hospital use.
- Partially filled with polypropylene beans – safely contained in a separate inner sack.
- Carefully calculated weight and size keeps the pacifier near baby's mouth.
- Comes with removable Preemie or Newborn size JollyPop® Pacifier (medical grade silicone, latex free).

*Soft and pliable CuddleStar is easy for baby to grasp and cuddle.*

*Tuck the star around baby for side-lying comfort.*

### Product Specifications

Phthalate-free, latex-free, BPA-free and DEHP-free. Manufactured in the USA.

**CuddleStar:** Polyester non-woven outer and inner layer. Velcro® closure for pacifier.

New, polypropylene beads contained in inner layer. Meets ASTM F963-11 safety code requirements and is baby safe.

**JollyPop Pacifier:** 100% medical grade silicone. Complies with USA Standard 16CFR 1511.

### Instructions For Use

Clean pacifier before initial use. Single-patient use only.

See complete Instructions For Use provided with product.

**Preemie:** For 30-40 week gestational age infants and/or for small gestational age babies.

**Newborn:** For babies without teeth (not suggested for the stage of teething).

NP5-1502-004J

**Do not tie pacifier around baby's neck as it presents a danger of strangulation.**
